<https://github.com/kavishkasandaruwan2002>

OBJECTIVE

Software Engineering undergraduate at Sri Lanka Institute of Information Technology (SLIIT) with hands-on experience in full-stack web development using React, Node.js, and MongoDB. Strong foundation in system analysis, RESTful API development, and database design. Seeking a Software Engineering / Full-Stack/DevOps engineer Internship to contribute to real-world projects while strengthening industry-ready skills.

SKILLS & EXPERTISE

Languages: C, Java, JavaScript, TypeScript, HTML, CSS

Frameworks & Libraries: React, Node.js, Express, Angular, Spring Boot

Databases: MongoDB, MySQL

UI/UX & Analysis: Figma, Wireframes, User Flows, Requirement Analysis

DevOps & Cloud: AWS (basic), CI/CD (basic)

Tools: Git, MS Office

PROJECT

Microservices Developer | 2026

Healthcare-microservice | 2026

 <https://github.com/kavishkasandaruwan2002/healthcare-microservices>

- Developed a healthcare management system using microservices architecture
- Designed and implemented independent services for patient management, appointments, and medical records
- Built and integrated RESTful APIs for communication between services
- Ensured scalability and maintainability through service-based design
- Applied best practices in API design and system integration
- Focused on performance optimization and fault isolation
- Improved system reliability through modular architecture

Software Developer | 2026

<https://github.com/kavishkasandaruwan2002/PowerWise>

- Developed a smart health monitoring application to analyze user data and provide insights
- Implemented predictive features for health risk assessment and recommendations
- Designed an interactive UI with real-time feedback for improved user experience
- Focused on modular design and system performance

PIPELINE-1 – Workflow Management System

<https://github.com/kavishkasandaruwan2002/PIPELINE-1>

- Developed a system to track and manage workflow stages efficiently
- Applied full-stack development concepts and system design principles
- Focused on process automation and data consistency

Car Workshop Management System

<https://github.com/kavishkasandaruwan2002/Car-Workshop-System>

- Built a system to manage vehicle services and workshop operations
- Implemented features for service tracking and data handling
- Improved usability through structured workflows

EDUCATION

BSc (Hons) Information & Communication Technology

- Specialized in Software Engineering
Sri Lanka Institute of Information Technology (SLIIT)
2022 – Present
Current GPA :3.11

G.C.E. Advanced Level – Sri Lanka

G.C.E. Ordinary Level – Sri Lanka

EXPERIENCE

Cashier | New City Pharmacy

- Managed daily transactions accurately and responsibly
- Improved communication, problem-solving, and customer service skills
- Developed teamwork and time-management skills applicable to software development environments

2018-2019

Data handler | TurtlesEgg Inc.

- Managed and validated structured data with attention to accuracy and consistency
- Worked with digital tools and spreadsheets to maintain data quality

2023

ADDITIONAL INFORMATION

- **Professional Memberships:** IEEE Student Member -SLIIT ,Leo Club Member-SLIIT, Member of Sasnaka Sansadaya
- **Languages:** Sinhala, English
- **Skills:** Problem Solving, Crisis Management, Creative Thinking, Brand Development, Customer Orientation, Adaptability to Change
- **Certificate:** UI/UX course FSD Academy
